

# ID Card Ribbon Shredder

Be in Control of Your Security

## RL6 Ribbon Shredder

Uses your own shredder to securely destroy your used printed ID card printer ribbons safely in your own facility.

Thermal transfer & Dye-sublimation polyester based ribbons cannot be easily destroyed and typically must be sent out for destruction until now.

To be compliant with privacy laws you must be sure used (printed) ribbons are being properly destroyed or shredded every time!

### Corporations, Federal & Private Entity Risks

- Are you aware that for privacy laws, certain information **HAS TO BE SHREDDED?**
- Are you doing enough to **PROTECT** from potential lawsuits resulting from ID theft?
- Used Printed Ribbons can easily be stolen by dumpster divers. It is your responsibility to Protect the identity of the people whose ID's you create.
- IF You spend \$1000's protecting your company **DATABASE & Network**, shouldn't you be protecting the printed information as well?

### RL6 Safe Risk Management

- Shred your printed ribbons yourself and **WITNESS** the shredding.
- Have **PEACE** of MIND that employee and client personal printed information is being disposed of properly and securely.
- You don't have to wait! The DigiOn24 RL6 connects to your existing document shredder so you can begin shredding **IMMEDIATELY**.
- The use of the liner in the DigiOn24 systems acts as a **DETERRENT** by tripling the quantity of shredded pieces a thief would have to sift through and put back together, creating higher security **PROTECTION**.
- **USER-FRIENDLY** Drop-in loading makes it easy to get started. Be compliant with privacy laws in 3 easy steps:
  1. Load the liner
  2. Load the used ribbon(s)
  3. Start shredding!

### Ideal for:

- Employee ID's
- Student ID's
- Local government identification
- Federal government identification
- Driver's licenses
- Passports

# DigiOn24

# Don't Take Chances! Witness the Destruction!

## Ribbon Shredder Features

Industrial Design:  
Jam-proof design – no ribbon cling!

Hangs over your desk, connects to existing office paper shredder

Works with most heavy duty shredders available in the marketplace:

- Fellowes
- Formax
- Shredmaster
- Dahle
- Destroyit

Easy to use Drop-in loading

The Liner System:

Includes 2 rolls of shredder liner (6" by 750")  
Since it uses your existing shredder there is minimal overhead

No annual contract

Each roll of shredder liner can shred 2 rolls of high capacity 5-panel (YMCKO) ribbons at the same time!

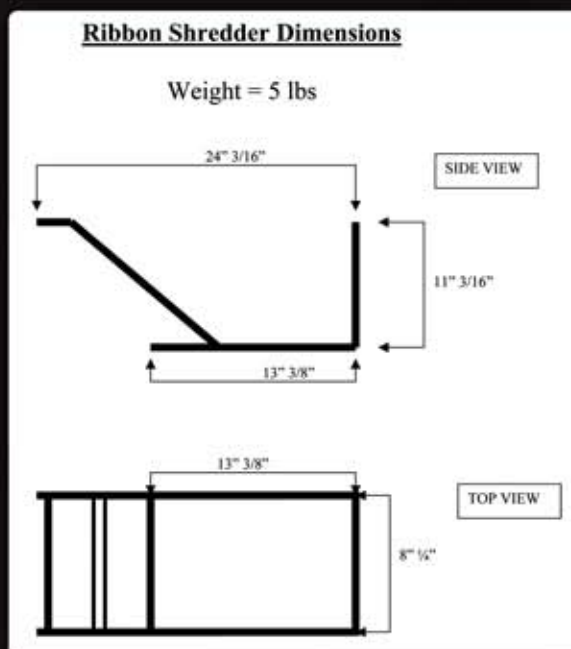

Patent Pending
