

ID-CAB® 2000

Inventory Security Cabinet with Large Capacity

Who Has Access to Your Company's Valuable Assets?

Security Risks

- You have invested precious dollars into your assets, but are you doing enough to protect that investment?
- INTERNAL THEFT, as unfortunate as it may be, is a very real challenge
- When items go missing, do you KNOW who was the last person with access and when?
- ORGANIZATIONAL RISKS, such as easy duplication and uncontrolled operator access, can also jeopardize the security of your operation.
- Whether you lose one small asset or compromise your entire system, the potential risk to your organization is significant.

Risk Management:

- With the ID-CAB® 2000, an inventory security cabinet, you can TRACK, PROTECT and MANAGE your asset materials investment
- This high quality metal cabinet uses contactless smart card technology to secure and track the assets stored within
- It offers three levels of security, with 2000 access records tracking and audible alarms
- With the ID-CAB® 2000's exceptional access tracking – including DATE & TIME STAMP – you will never wonder about your valuable assets again.

Ideal for:

- Security
- Government Agencies
- Medical Facilities
- Universities
- Forensic Labs
- Experimental Labs
- Armed Forces
